endoscopic irrigation pump

Waterfall

irrigation of the operating site is a very important element of any endoscopic procedure

In endoscopic procedures, the operation site may be contaminated with chime or blood residue in the gastrointestinal tract.

The **Waterfall** endoscopic irrigation pump was designed to ensure full comfort and safety during surgeries.

The pump makes it possible to quickly rinse the gastrointestinal tract using physiological saline directly through the endoscope's rinsing opening or by using endoscopic instruments.

Advantages of the **Waterfall** endoscopic pump

- assures good visibility and clean operating site
- reduces tissue adhesion on endoscopic instruments
- irrigation using physiological saline increases tissue conductivity - faster electrosurgical effects
- quick and easy fluid flow adjustment from the pump control panel
- microprocessor control of fluid flow
- low-noise, does not cause nuisance in the procedure room
- small size and possibility of mounting of the device on the SpectrumLine and TinyLine trolleys, gives easy access to the pump during the procedure

Waterfall technical specification

SAFETY FEATURES

Electric shock protection	Class I
Application part	BF
IP class	IP23

SUPPLY

Supply voltage	230 V or 110 V 50/60 Hz
Nominal power	40 VA
Digital flow control	YES

OTHER

Noise level	Max. 50,0 dBa
Footswitch	one pedal footswitch with 6-pin cable, one-pedal wireless footswitch, pneumatic
Pump type	3-roller peristaltic
Pump rpm	from 1 - 65 rpm to 10 - 545 rpm

FLOW PARAMETERS

Drain Ø 3.2 mm	Up to 550 ml/min
----------------	------------------

DIMENSIONS & WEIGHT

Dimensions	190 mm x 230 mm x 330 mm
Weight	4,4 kg

020-100 *
WATERFALL endoscopic irrigation pump

* does not include a bottle

Accessories

PLPPLF200
Disposable irrigation tubing - EMED Pump/
Pentax-Fujifilm GI Endoscopes (with one way valve)

100100
Single use one-way water jet
connector for Olympus endoscope

PL0000100
Disposable irrigation tubing - EMED Pump/
OLYMPUS GI Endoscopes (with one way valve)

100300
Single use one-way water jet
connector for Fujifilm endoscope

100-301
One-pedal footswitch, cable 5 m, 6-pin plug

100-311
One-pedal footswitch, wireless
